GT99

The GT99 Survival Suit is engineered for extreme working environments, such as offshore industries, maritime SAR operations, commercial fishing, and wind farms. This suit combines cutting-edge technology, comfort, and durability, making it a top choice for professionals who demand the best protection.

Key Features:

- Full Neck Protection: The zipper wraps around the neck for complete water and cold protection.
- Durable Metal Zipper: The Dynat metal zipper ensures durability and reliability during extended use.
- Comfort & Fit: Attached S5 boots offer stability, and the ergonomic design ensures a perfect fit. Easy to wear and pairs well with a life vest.
- High Visibility: Black design with neon yellow accents for visibility in low-light conditions.
- Certified Protection: Complies with 1-hour AES - SOLAS/MED standards for maritime safety.
- Integrated Equipment: Includes a neoprene hood, Leash line with carabiner, splash-proof pockets, and reinforced knees, elbows, and seat.
- Additional Gear: Neoprene gloves, knee pocket, and harness for added safety.

Applications:

The GT99 Survival Suit is ideal for offshore ERRV and FRB crews, maritime Search and Rescue (SAR), Maritime Evacuation Systems (MES), Man Overboard (MOB) crews, defense personnel, and professional operators. It's designed to support and protect the wearer in the most demanding conditions.
