Optional sizes available

GTWIND

The **GTWIND** Survival Suit is specifically designed to meet the demanding conditions of the offshore industry, maritime SAR operations, commercial fishing, and wind farms.

Featuring state-of-the-art equipment and rugged materials, this suit offers maximum protection and functionality in extreme working environments.

Key Features:

- **Color & Material:** A striking design in black with bright neon yellow accents for enhanced visibility. The durable Dynat fabric, combined with a YKK diagonal zipper, ensures lasting performance and ease of donning and doffing.
- **Certification:** Meets the stringent requirements of 1hr Anti Exposure Suit AES - Solas/MED for safety at sea.
- **Innovative Equipment:** Integrated storm hood and a helicopter line with a carabiner hook for maximum safety. Large, ergonomic chest pockets and arm pockets with splash-proof zippers provide ample storage space.
- **Adjustment & Comfort:** An elastic waistband, internal suspender system, and covered dry socks with coated non-slip soles ensure a perfect fit and comfortable wear. Also available with attached S5 boots for additional protection.
- **Reinforced Protection:** Knee, elbow, and seat reinforcements protect critical areas. A knee pocket for additional padding and the size designation on the left sleeve for easy identification.
- **Special Gear:** 5-finger neoprene gloves (3mm) for cold protection, a leg pocket with a splash-proof zipper, and a helicopter harness with stainless steel attachment enhance functionality and safety.
- **Applications:** Ideal for offshore ERRV and FRB crews, maritime Search and Rescue (SAR), Maritime Evacuation Systems (MES), and Man Overboard (MOB) crews, defense, and professional operators, as well as for commercial fishing and wind farms. The GTWIND Survival Suit is not just a piece of equipment but a comprehensive safety system designed to protect and support the wearer in all conditions.
