

SAR

SEARCH & RESCUE SUIT

Versatile search and rescue suit made of high-visibility orange SBR neoprene, for emergency operations and above all for flood areas. Leg and chest pockets and a D-ring system on the back for line guidance support rescue work. Configurable as a drysuit with valves, or with S5 rubber boots instead of neoprene boots. To be worn with a lifejacket.

GSAR50

TECHNICAL DATA

ART. NO.	GSAR50
MATERIAL	6 mm SBR neoprene, hi-vis orange with black panels
SEAMS	Triple-glued, stitched on the outside
ZIPPER	Horizontal shoulder zipper, back entry
